PROFILE SUMMARAY:

I am adept at integrating Next.js, MongoDB, and React to build dynamic and data-driven web applications. My development of the Read Verve Blog Site showcases my proficiency in combining these technologies to deliver performant and SEO-friendly solutions with seamless user interactions.

ABOUT ME:

I am an undergraduate student of Software Engineering at PAF-IAST. I have a keen interest in both frontend and backend development, I've become a skilled Full Stack Developer. Over the last year, I have immersed myself into various technologies, focusing on Next.js and the MERN stack (MongoDB, Express.js, React, Node.js). I'm excited to apply my expertise and passion to a dynamic work environment where I can further develop professionally while making meaningful contributions.

TECHNICAL SKILLS:

Languages: HTML, HTML5, CSS, CSS3, JavaScript.
Stack: Next.js, MERN.
Frameworks: Next.js, React.js, Node.js, Express.js.
Database: MongoDB.
Developer Tools: Visual Studio Code, Postman, Git, GitHub, Vercel.
Others: Redux, Multer.

SOFT SKILLS:

My soft skills include creativity, error-free work, and strong interpersonal skills, alongside good communication, problem-solving, logical thinking, and teamwork abilities.

PROJECTS & EXPERIENCE:

Portfolio Website | Next.js, React.js, Tailwind CSS.   Feb 2024
Repository: https://github.com/just-abdullah-dev/just-abdullah

- Developed a visually appealing and responsive portfolio website showcasing my skills and projects.
- Leveraged the powerful features of **Next.js**, a **React** framework, to build a performant and SEO-friendly web application.

- Implemented sleek and modern UI design using **Tailwind CSS**, ensuring a polished and professional appearance across devices.
- Ensured continuous development progress by regularly pushing code updates to the **GitHub** repository and deployed the live website on **Vercel.com** for seamless accessibility and testing.

Skill Joiner | Next.js, React.js, Node.js, MongoDB, Tailwind CSS.   Dec 2023 – Jan 2024
Repository: https://github.com/just-abdullah-dev/skill-joiner-nextjs (Semester-end Project)

- Designed and developed a comprehensive full-stack web application, **Skill Joiner**, aimed at connecting users based on shared skills and interests.
- Implemented authentication functionality for users, utilizing **Redux** for global state management and ensuring secure access to the platform's features.
- Established a **RESTful API** architecture to support data exchange between the frontend and backend components, promoting efficient communication and data management.

Read Verve Blog Site | Next.js, React.js, Node.js, MongoDB, Tailwind CSS.   Oct 2023
Repository: https://github.com/just-abdullah-dev/read-verve-next-js (Also developed in MERN)

- Designed and developed a comprehensive full-stack web application.
- Implemented a robust **CMS** (Content Management System) to efficiently manage and organize blog content, providing an intuitive interface for content creators.
- Developed **RESTful APIs** to facilitate seamless communication between the frontend and backend, enabling dynamic content rendering and user interactions.

EDUCATION:

Pak-Austria Fachhochschule (PAF-IAST)   **Haripur, KPK**
Bachelor of Software Engineering (4th Semester)   Oct 2022 – Present

Sir Syed Model School & College   **Haripur, KPK**
Intermediate Computer Science (ICS)   Oct 2020 – Oct 2022
